Technology Solutions to Enhance Your Business

We are trusted by firms around the world for our renowned technical knowledge and superior customer service

Why Tiger Eye?

The success of our clients is at the heart of our business.

Since 2005, we have strived to deliver a world-class experience for our customers by pairing market-leading products with our signature consultative approach to IT. Providing 'expertise from the team that listens', we ensure that every client receives the best solution for their unique needs.

Our passionate team support our global customer base to achieve their business goals. Whether supporting firms to maximise security, improve efficiency or enhance collaboration, our approach to innovation is always firmly rooted in collaboration with our clients. From leading law firms to corporate companies, we work in partnership with our customers to optimise their IT and maximise their investment in technology.

As the leading iManage partner for knowledge and technical expertise, we help our clients to...

- Bespoke development services

Our customer base spans the following sectors:

- Law
- Finance
- Accounting
- Charity
- Real Estate
- Insurance
- Energy
- Media

Who we are

Our corporate structure enables us to deliver a comprehensive range of solutions and services for the management of documents, emails and knowledge. From initial consultancy through to ongoing support, we can provide expertise and guidance throughout the entire document management lifecycle.

Our strategic set-up includes in-house teams for consultancy, technology implementation, technical support and client success. Unlike other providers in the marketplace, we also have a dedicated development team who deliver custom developed software for our customers, and tailor existing tools to support our clients' working practices.

Consultancy Team

Using industry experience and technical expertise to guide customers through the software selection process.

Project Delivery Team

Ensuring effective iManage implementations, roll-outs and system upgrades for our global client base.

Development Team

Designing bespoke software, building integrations and customising tools to improve user experiences.

Technical Support Team

Monitoring iManage systems to avoid issues and reducing the risk of service disruption through technical help.

Client Services Team

Delivering outstanding customer service for our clients as well as ensuring that our administrative services are first-rate.

Training Support Team

Preparing end users for system changes and maximising user adoption to ensure return on investment.

Values

At Tiger Eye, we aim to work with pride, passion, and positivity. These guiding principles are the backbone of our business practices, directing the way we behave but also how we operate as an organisation, from supporting our people, to reducing our environmental impact, and making meaningful contributions to our community.

Pride

While our client base spans the globe, we are proud to make a positive impact in our local community. We are proud to regularly support local causes, and are committed to reducing our environmental impact.

Passion

We are passionate about innovation. This not only guides our client work, but also directs the way we work as a team. Our passion for innovation is supported by our positive work culture, within which local talent is mentored so that our people can reach their full potential.

Positivity

Our company culture and award-winning wellbeing scheme set us apart from the competition. We recognise that our expert team are the key to our success, and we strive to have a positive impact on our people through wellbeing support and our investment in personal development.
